DETAILED ACTION

Response to Amendment

1. This is a fourth office action in response to applicant's amendment filed, 17 October 2005, of application filed, with the above serial number, on 01 August 2001 in which claims 1, 8, 20, and 28 have been amended. Claims 1-35 are therefore pending in the application.

Allowable Subject Matter

2. Claims 1-35 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants arguments are deemed persuasive. The prior art of record fails to teach or suggest individually or in combination the claimed limitations, including at least self-discovering in a real-time manner, the physical network inventory and logical network inventory, as the physical network elements and logical network elements change over a time period. Therefore, claims 1-35 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The drawings filed on 05 March 2002 are acceptable subject to correction of the informalities in Figure 6. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
